

## SUNSMART POLICY

### PURPOSE

The purpose of this policy is to encourage behaviours at Gardenvale Primary School to minimise the risk of skin and eye damage and skin cancer.

This policy provides guidelines to:

- support staff and students to use a combination of sun protection measures when UV index levels are 3 or above (generally mid-August – end of April)
- ensure that there are outdoor environments that provide adequate shade for students and staff
- ensure students are encouraged and supported to develop independent sun protection skills to help them to be responsible for their own protection
- support our school's strategies to meet its duty of care and occupational health and safety obligations to minimise harmful UV exposure and associated harm for students and staff.

### SCOPE

This policy applies to all school activities, including camps and excursions. It is applicable to all students and staff.

### POLICY

Excessive exposure to the sun's ultraviolet (UV) radiation can cause health problems including sunburn, damage to skin and eyes, and an increased risk of skin cancer.

UV radiation:

- cannot be seen or felt
- can be reflected off surfaces such as buildings, asphalt, concrete, water, sand and snow
- can pass through light clouds
- varies in intensity across the year (highest in Victoria from mid-August – end of April)
- peaks during school hours

Sun safety is a shared responsibility and staff, parents and students are encouraged to implement a combination of sun protection measures whenever UV levels reach 3 and above (typically from mid-August to the end of April in Victoria). Information about the daily local sun protection times is available via, the free SunSmart app, or at [sunsmart.com.au](http://sunsmart.com.au) or [bom.gov.au](http://bom.gov.au).

Gardenvale Primary School has the following measures in place to help reduce the risk of excessive UV sun exposure for staff and students.

### Shade

Gardenvale Primary School will endeavour to provide sufficient options for shelter and trees to provide shade on school grounds, particularly in places such as:

- the courtyards

School council approved this policy on 18.2/20.

## GARDENVALE PRIMARY SCHOOL

### SunSmart

- play equipment areas
- assembly areas

When building works or grounds SunSmart maintenance is conducted at Gardenvale Primary School that may impact on the level of shading available to staff and students, a review of the shaded areas available will be conducted and further shading installed as appropriate.

### Sun protective uniform/clothing

Gardenvale Primary School's school uniform and dress code includes sun-protective clothing, including:

- loose, cool, closely-woven fabric
- shirts with a collar and/or high necklines
- tops with elbow length or long sleeves
- longer style shorts and skirts
- From mid-August (exact date to be set by the school annually) to 30 April, all students **must** wear the school wide brimmed sun protective hat that shades the face, neck and ears for all outdoor activities as well as travelling between the two campuses.
- Hats may also be worn for all outdoor activities outside of the August to April time period, by parent or student choice.
- Staff must wear a broad brimmed hat at times and events noted above and will be provided with a school wide brimmed hat or they may wear a personal wide brimmed hat.

Students who are not wearing appropriate protective clothing or a hat will be asked to play in the shade of the courtyard or in a suitable area protected from the sun.

### Sunscreen

Gardenvale Primary School encourages all staff and students to apply SPF30 (or higher) broad-spectrum, water-resistant sunscreen daily whenever UV levels reach 3 and above. Sunscreen should be applied at least 20 minutes before going outdoors, and reapplied every two hours according to [manufacturer's instructions](#).

Gardenvale Primary School does not provide sunscreen but children are encouraged to bring some from home to keep in their school bag.

Gardenvale Primary School staff remind students to apply sunscreen before going outdoors.

Staff and families should role model SunSmart behaviour and are encouraged to apply SPF 30 (or higher) broad-spectrum, water-resistant sunscreen when outside.

### Sunglasses

Gardenvale Primary School encourages students and staff engaged in outdoor activities to wear close-fitting, wrap-around sunglasses that meet the Australian Standard 1067 (Sunglasses: Category 2, 3 or 4) and cover as much of the eye area as possible.

### Curriculum

School council approved this policy on 18.2/20.

## GARDENVALE PRIMARY SCHOOL

Students at our school are encouraged to make healthy choices, and are supported to understand the benefits and risks of sun exposure. Gardenvale Primary School will address sun and UV safety education as part of the Inquiry Units taught.

Staff are encouraged to access resources, tools, and professional learning to enhance their knowledge and capacity to promote sun smart behaviour across the school community.

Staff will ensure the SunSmart policy is reflected in the planning of all outdoor events (eg. camps, excursions, sporting events).

### Engaging students, staff and families

SunSmart behaviour is regularly reinforced and promoted to the whole school community through newsletters, school assemblies, student and teacher activities and at student enrolment/new staff orientation.
